

Pteridophytes of the Hocking Hills

List compiled by John Knouse

& means only one site (or two sites) known

Type size reflects relative frequency

Lycophytes

Huperzia lucidula

Huperzia porophila

Lycopodium dendroideum

Diphasiastrum digitatum

Horsetails

Equisetum arvense

Equisetum hyemale var. affine (Hippochaete hyemale var. affine)

Ophioglossoids

Botrypus virginianus

Sceptridium dissectum

Sceptridium oneidense

Botrychium lanceolatum

Botrychium matricariifolium

Ophioglossum pycnostichum

Osmundaceae

Osmundastrum cinnamomeum

Osmunda regalis

Osmunda claytoniana

Hymenophylloid clade

Trichomanes boschianum

Trichomanes intricatum (gametophyte) &

Schizaeoid clade

Lygodium palmatum

Dennstaedtioid clade

Dennstaedtia punctilobula

Pteridium aquilinum

Pteridoid Clade

Adiantum pedatum

Vittaria appalachiana (gametophyte)

Blechnoid clade

Cystopteris bulbifera

Cystopteris tennesseeensis

Cystopteris tenuis

Thelypteris noveboracensis

Phegopteris connectilis & (2 sites)

Phegopteris hexagonoptera

Asplenium rhizophyllum

Asplenium pinnatifidum

Asplenium montanum

Asplenium platyneuron

Asplenium trichomanes ssp. quadrivalens

Asplenium Xtrudellii &

Onoclea sensibilis

Athyrium angustum

Deparia acrostichoides

Diplazium pycnocarpon

Polypodioid clade

Polystichum acrostichoides

Dryopteris carthusiana

Dryopteris intermedia

Dryopteris marginalis

Polypodium appalachianum

Polypodium virginianum

Pleopeltis polypodioides &
